

Mortairvent Weep Scream®

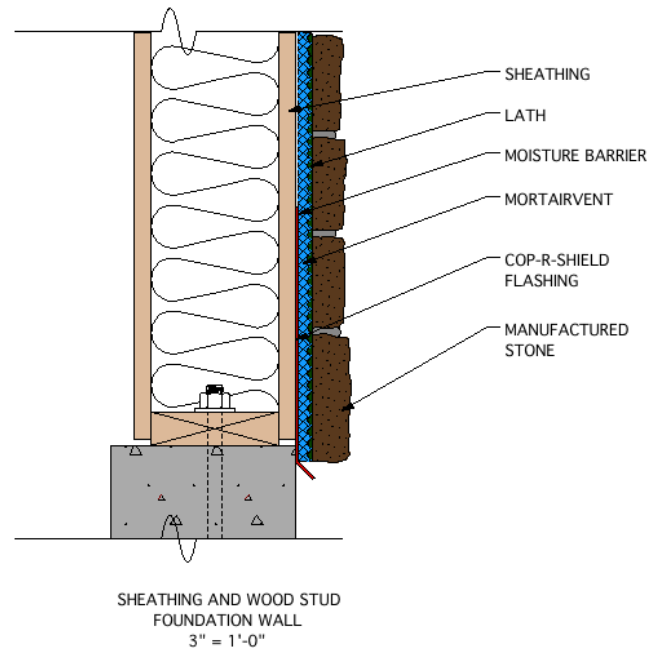

Specification Bulletin
No. 304

Mortairvent Weep
Scream®

Mortairvent Weep Scream® |

Description:

Mortairvent Weep Scream® is designed for use with Stucco, EIFS, Stone, and Stone Veneers. Mortairvent Weep Scream® should be installed at the plate line, or stem wall, providing a stop for Stucco, EIFS, Stone, or Stone Veneers. Mortairvent Weep Scream® has a patented design which allows moisture to migrate down and shed away from the wall.

Specification:

All exterior accessories shall be of PVC material conforming to ASTM D1784, C1063 and D4216. They shall be used where specified by the architect and installed per industry standards.
