

I looked at the bench near the veteran's monuments and the best size would be 3" x 12".

3" x 12" Cast Plaque:

Cast Aluminum - \$150 - \$200

Cast Bronze - \$250 - \$300

Best layout on a plaque that size is 3 lines with the name being slightly larger than the other lines.

Sample wording:

In Memory of
SSGT. John Doe
1950-2020

If you can get the actual wording by the time I return I can then get the actual cost. I should also be able to get a proof which would show how it would look.
