	LANDMARK SURVEYS, LLC 62 LOWER BUTCHER RD ~ 860-875-8204 ELLINGTON, CONNECTICUT		
DRAWN BY R.L.D.	SCALE 1"=20'	DATE 2/7/2024	JOB NO. 202202-2PGAR

Statement of hardship

We are requesting a side yard setback variance for a proposed 50 x 30 garage addition to the existing detached garage.Â Â

The property is 200' wide and 600' deep.Â The property ascends from the road up to the location of the house and existing garage.Â The house and garage are built on a level area at the highest point on the property.Â Behind the existing garage is ground begins to descend across the septic field and down to the back property line.Â Â

The existing detached garage is 40' away from the side property line.Â The proposed garage is 30' wide and will be 10' away from the property line.Â Due to the location of the existing garage and the topography of the lot we are requesting a reduction in the side yard setback from 25' to 10' to the foundation of the proposed garage.Â Â Â

Â The most reasonable place to building on this lot is the level area at the crest of the hill where the house and existing garage are.Â The back yard is for the septic area and septic reserve area.Â Â

With the garage doors on the house opening to the south, it is important to leave enough space to have a proper turning radius to utilize the existing and proposed garage doors.Â Â

If the garage were to be built in front of the house, it would change the appearance of the lot when driving up the driveway.Â The garage would obstruct the view of the single-family home. Â Â
Due to the location of the existing structures, use of the lot, and the topography of the lot, we are requesting a reduction in the side yard setback from 25' to 10' for a 30' x 50' garage addition.
