No one wants to live with rats.

The City of Revere takes
rodent control seriously and has a
free program for residents.

Follow this guide for tips and to learn
more about how to prevent rodent
activity in your neighborhood.

PREVENTION

- Keep the yard clean and maintain over growth.
- Store garbage in heavy plastic containers with tight-fitting lids.
- Remove food sources like pet food and water bowls.
- Seal cracks and small holes with sealant.
- Fill burrows in the ground with tightly packed soil.
- Close door gaps with door sweeps.
- Put screens on vents and replace or repair damaged screens.
- Cover large holes with metal lathes and seal them with mortar or cement.

Rats can squeeze through cracks and holes as small as a ½ inch.

LOOK FOR EVIDENCE

- Droppings
- Burrow Holes
- Gnaw Marks
- Runways

Work with neighbors to clean up properties together so that the rats have nowhere to go

We are here to help!

The City has contracted professional exterminators to respond to complaints of rodents from residents.

Property owners and managers who contact 3-1-1 and provide a signed waiver will have their property inspected by an exterminator within 7 days. Treatments for only exterior of property.
