

Project Advisory

Bridge Repairs on Revere Beach Parkway over Broadway, Revere

Priority Bridge Repairs

What is happening?

The bridge carrying Revere Beach Parkway over Broadway will undergo a series of targeted priority bridge repairs. The purpose of this project is to address targeted areas of deterioration to improve public safety and maintain the existing through-travel capacity on Route 16 prior to the full replacement of the bridge.

The bridge currently provides two westbound lanes and three eastbound lanes on Route 16 that connect to on and off ramps to/from Route 107. The existing lane configuration will be restored when repairs are complete.

How will this affect you?

Repairs are expected to begin in early January 2025 and are expected to be completed in Spring 2025. Repairs will occur in three (3) phases. Weather and unexpected circumstances make all construction activities subject to change, but we will do our best to keep you updated.

Phase 1 – estimated seven weeks

In phase 1, the westbound side of Revere Beach Parkway (Route 16) will be reduced to one lane of traffic and the eastbound side will be reduced to two lanes of traffic. On Broadway (Route 107), a temporary traffic signal will be installed at the Route 16 westbound off ramp and traffic will be shifted to the westerly side and will be reduced to one lane of traffic in each direction. The work zone on Broadway (Route 107) will impact vehicular and pedestrian traffic and will require temporary parking restrictions on Broadway and the Route 16 westbound off ramp.

Phase 2 – estimated three weeks

In phase 2, two lanes of traffic will be open in each direction on Revere Beach Parkway (Route 16). On Broadway (Route 107), the temporary traffic signal will remain at the Route 16 westbound off ramp and traffic will continue to be shifted to the westerly side with one lane of traffic in each direction. The work zone on Broadway (Route 107) will impact vehicular and

pedestrian traffic and will require temporary parking restrictions on Broadway and the Route 16 westbound off ramp.

Phase 3 – estimated four weeks, including restoration of existing traffic layout

In phase 3, two lanes of traffic will be open in each direction on Revere Beach Parkway (Route 16). On Broadway (Route 107), traffic will be shifted to the easterly side and will be reduced to one lane of traffic in each direction during temporary nighttime operations. The work zone on Broadway (Route 107) will impact vehicular and pedestrian traffic, primarily during overnight periods, and may require temporary parking restrictions.

Travel tips

Please take care to pay attention to all signage as it is posted. Police details, temporary traffic signals, changes in lane markings, temporary controls such as barriers and traffic cones, signage, and other tools will be used throughout the project to control traffic and create safe work zones within the project limits.

How can I find more information?
