

JOB POSTING

Engineering Tech I - CCTV and Trenchless Rehabilitation

What's in it for me?

- We pay weekly. You will earn **\$55,882 - \$72,664** annually, depending on experience and qualifications.
- You will be home every night.
- We observe **Maine state holidays** which means 13 paid days off - without using your own paid leave! This is complemented by generous personal leave time.
- You'll be making the world a better place. The work we do protects public health and improves the environment.
- You'll have good opportunities for overtime and advancement including getting paid to obtain water and wastewater licenses.
- We pay for 85% of your health insurance (including your family! Or we'll pay you a generous opt-out if you are covered by a comparable plan by your spouse's employer). We pay 100% of your dental insurance. And we provide great retirement savings.
- You'll get lots of fresh air.

What will I do in this job?

- Operate a variety of specialized equipment, including geographic information system software (GIS) and other engineering software and hardware, personal computer, handheld devices, utility line locators, acoustic inspection devices, leak locating correlators and listening devices, global positioning system (GPS) and metal detectors.
- Operate closed circuit television (CCTV) tractors, cameras, lateral inspection equipment and software
- Maintain and rehabilitate above and below ground structures with protective coatings
- You'll be part of a skilled team that works together to maintain our water, stormwater and wastewater systems.

What qualifications do I need?

- High school diploma or equivalent
- Class C valid and insurable drivers license
- Valid Class II wastewater collection system certification within 18 months of hire
- Class I Water Treatment & Class II Water Operator's license, or the ability to obtain these licenses within 24 months of hire
- Possession of valid NASSCO PACP certification within 12 months of hire.

Sounds good, how can I apply?
