

- Specialised Contract Research Organisation
- Mass Spectrometry Proteomics
- Exclusive use of TMTpro 16-plex mass tags
- Protein and Post Translated Modifications
 - MS2/3 Discovery Proteomics
 - TMTcalibrator, PTM/SysQuant
 - Targeted (multiplexed) Proteomics
- Routine Proteomic Workflows and one-off Projects
 - Can detect 1 to >8,500 proteins per sample
 - ELISA equivalent sensitivity
 - ISO 9001:2015 and GCLP accredited
 - Complete analysis; includes extensive bioinformatics
