STATE WAGE RATES

State wage rates can be obtained at http://www.labor.state.ak.us/lss/pamp600.htm. Use the State wage rates that are in effect 10 days before Bid Opening. The City will include a paper copy of the State wage rates in the signed Contract.

CITY OF FAIRBANKS INVITATION TO BID NO. ITB 25-15

The City of Fairbanks is requesting sealed bids for furnishing all labor, equipment, materials, and performing all work necessary for the **12TH & CUSHMAN IMPROVEMENTS** project. Work includes, but is not limited to, installation of valley gutter, curb and gutter, and roadway resurfacing on 12 Avenue west of Cushman Street, as described in the specifications and shown on the Plans.

Contract documents will be available online at http://www.theplansroom.com, and https://www.fairbanksalaska.us/rfps. For the convenience and review by/of contractors, subcontractors, and suppliers, one complete hard copy set of contract documents is retained on file at the City of Fairbanks Engineering Dept. Office in City Hall, 800 Cushman Street.

Sealed bids are to be received by the City Clerk's Office, City Hall, 800 Cushman Street, Fairbanks, Alaska 99701, until **2:00 P.M. local time, July 28, 2025**, and will immediately thereafter be publicly opened and read aloud in the Engineering Conference Room at the same address.

The City reserves the right to waive informalities not inconsistent with the law and to reject any or all bids.

PUBLISH: Fairbanks Daily News-Miner: July 3 and July 6, 2025

PART I - INSTRUCTIONS TO BIDDERS

DIVISION 000 - INSTRUCTIONS TO BIDDERS

000-1.01 CONSTRUCTION DOCUMENTS ONLINE. Contract documents are available only electronically at http://www.theplansroom.com, and https://www.theplansroom.com, and https://www.fairbanksalaska.us/rfps. The Associated General Contractors Plans Room is located at 3750 Bonita Street in Fairbanks (907) 452-1809, and at 8005 Schoon Street in Anchorage (907) 907-561-5354. The Plans Room LLC in Anchorage is located at 4831 Old Seward Highway, Suite 202, (907) 563-2029. For the convenience and review by/of contractors, subcontractors, and suppliers, one complete hard copy set of contract documents, construction plans, and technical specifications is retained on file at the City of Fairbanks Engineering Department Office in City Hall, 800 Cushman Street. The City reserves the right to waive informalities not inconsistent with the law and to reject any or all bids.

000-1.02 RECEIPT AND OPENING OF BIDS. The City of Fairbanks, Alaska (hereinafter called the "Owner"), invites bids submitted on the forms described herein. Bids including any amendments or withdrawals must be received by the City Clerk's Office, at or prior to, the designated time. Bids not received by the City Clerk's Office at, or prior to, the designated time will not be accepted and will be returned to the bidder unopened. Mailed or hand-delivered envelopes containing the bids must be sealed, addressed to the City Clerk at 800 Cushman Street, Fairbanks, Alaska 99701-4615, and designated as specified in the "Invitation to Bid."

000-1.03 BID SECURITY. Bid security is required with each bid in the following amount:

- 1. Ten Percent of the amount of the bid if the bid does not exceed \$100,000; or
- 2. Ten percent of the first \$100,000 and five percent of the amount of the bid over \$100,000 if the bid exceeds \$100,000 up to a maximum of \$200,000 in security.

000-1.04 EQUAL OPPORTUNITY. The City of Fairbanks hereby notifies all bidders that it will affirmatively ensure that in any contract entered into pursuant to this Invitation, Disadvantaged Business Enterprises (DBEs) will be afforded full opportunity to submit bids and will not be discriminated against on the grounds of race, color, national origin, or sex in consideration for an award.

000-1.05 NOTICE TO BIDDERS. Bidders are hereby notified that data to assist in preparing bids is available as follows:

- Construction standards, Golden Heart Utilities (GHU) Most current version available for download at https://www.myutility.us/akwater/account-billing/information-for-builders
- Alaska Test Methods and the Construction Surveying Requirements manuals Most current versions available for download at http://www.dot.state.ak.us/stwddes/dcspubs/index.shtml#.
 - The Standard Specifications for Highway Construction [English Edition] dated 2020 can be downloaded from the internet at http://www.dot.state.ak.us/stwddes/dcsspecs/index.shtml.
 - AKDOT&PF Standard Drawings link: http://www.dot.state.ak.us/stwddes/dcsspecs/index.shtml
 For further information contact Statewide Design & Engineering Services at (907) 465-2960.

000-1.06 BID QUESTIONS.

All questions relating to bidding procedures, design features, constructability, quantities, discrepancies, request for correction, or other technical aspects of the project must be submitted via email to the City of Fairbanks Engineering Department via tzinza@fairbanks.us, attention Tim Zinza, Project Manager.

Questions must be submitted to the Owner via email at least seven calendar days prior to the date fixed for the opening of the bids.

000-1.07 OTHER INFORMATION:

Bid results are available after the bid opening by accessing the City of Fairbanks home page at https://www.fairbanksalaska.us/rfps.

The Standard Specifications for Highway Construction [English Edition] dated 2020 can be downloaded from the internet at http://www.dot.state.ak.us/stwddes/dcsspecs/index.shtml.

000-1.08 CONTRACT QUANTITIES IN BID SCHEDULE. The quantities appearing in the bid schedule are approximate only and are prepared for the comparison of bids. Payment to the contractor will be made only for the actual quantities of work performed and accepted or materials furnished in accordance with the contract. The scheduled quantities of work to be done and materials to be furnished may each be increased, decreased, or omitted as hereinafter provided.

This project contains pay items with contract quantities as defined with technical and special provisions.

000-1.09 CONTRACT AWARD.

- 1. Except as provided in the Code of Ordinances, City of Fairbanks, Alaska, also cited Fairbanks General Code (FGC); contract award authority is by resolution of the City Council.
- 2. The awarding authority may award a contract based on solicited bids to the lowest responsive and responsible Bidder as provided in the FGC and these contract documents and specifications.
- 3. Local bidder preference will be used as a criterion in awarding this bid. (The provisions of local preference are not applicable to any contract funded by a Federal or State grant which expressly prohibits a local preference in awarding contracts.)

000-1.10 REQUIRED DOCUMENTS. Each bid must be submitted on the prescribed forms.

Required for Bid. Bids will not be considered if the following documents are not filled out completely and submitted at the time of bidding:

- 1. Bid and Non-Collusion Affidavits
- 2. Bid Schedule(s)
- 3. Bid Bond (with Power of Attorney when appropriate)
- 4. Legible reproduction of current Alaska Contractor's License or Certified License Statement
- 5. Copy of Current Alaska Business License
- 6. Copy of Current City of Fairbanks Business License

Required After Notice of Apparent Low Bidder. The apparent low bidder is required to complete and submit the following document within ten working days after receipt of written notification:

1. Sub-Contractors List

Required for Award. In order to be awarded the contract, the successful bidder must completely fill out and submit the following documents within the time specified in the intent to award letter:

- 1. Construction Contract (Agreement)
- 2. Contract Bond (Performance)

- 3. Contract Bond (Payment)
- 4. Contractor's Questionnaire
- 5. Certificate of Insurance (from carrier)
- 6. Bidders must register annually with the Civil Rights Office in order to be eligible for award. If not registered, or if unsure, submit the following: Bidder Registration (Form 25D-6)

000-1.11 CHANGE IN PREVAILING WAGE REQUIREMENTS. The Department of Labor and Workforce Development (DOLWD) proposed a revised regulatory definition of "on-site" in 8 AAC 30.910 to clarify the scope of activities covered by Alaska's Little Davis Bacon Act (AS 36.05.010-AS 36.05.110). For a copy of the revised definition of 8 AAC 30.910, go to: http://labor.alaska.gov.

DOLWD will enforce the revised provisions on all projects with a bid opening date on or after February 15, 2011. Prospective bidders on projects with a bid opening date on or after February 15, 2011, must consider the impact of the revised regulation and bid accordingly. DOLWD will not enforce the new "onsite" definition on projects with a bid opening date prior to February 15, 2011.

000-1.12 USING APPRENTICES. Contractors must comply with Administrative Order 226, which establishes a 15% goal for hiring apprentices in certain job categories; on highway, airport, harbor, dam, tunnel, utility or dredging projects financed by the State of Alaska. This Administrative Order will apply to all such projects advertised after September 1, 2005, where the project construction cost exceeds 2.5 million dollars.

For additional details, please visit: http://labor.alaska.gov/lss/forms/ApprenHireReq.pdf.

000-1.13 SPECIAL NOTICE TO BIDDERS. The City of Fairbanks may cancel this solicitation either before or after bid opening, but prior to the issuance of the "Notice of Intent to Award" under Subsection 103-1.03 of the <u>Standard Specifications for Highway Construction</u>, 2020 Edition, if it is determined that award is not in the best interest of the City.

The City also reserves the right to cancel this solicitation after issuance of the "Notice of Intent to Award" and the declared apparent low bidder for the project is cautioned to not proceed with any aspect of contract performance until a "Letter of Award" and "Notice to Proceed" have been issued by the City. The apparent low bidder is not relieved from any of the procedural requirements of Section 103 of the <u>Standard Specifications for Highway Construction</u>, 2020 Edition. By submitting a bid for this project, the bidder agrees that the City will not provide compensation for, nor be held liable for, any bidder or prospective contractor incurred costs associated with bid preparation or other prospective contractor incurred costs.

PART II – GENERAL PROVISIONS

DIVISION 100 – STANDARD SPECIFICATION FOR HIGHWAY CONSTRUCTION FOR THE ALASKA DEPARTMENT OF TRANSPORTATION & PUBLIC FACILITIES <u>STANDARD SPECIFICATIONS FOR HIGHWAY CONSTRUCTION</u>, 2020 EDITION, ARE MODIFIED AS FOLLOWS:

SECTION 101 DEFINITIONS AND TERMS

101-1.01 GENERAL. Add the following: In all specifications, DELETE all references to "Department" or "State" or "State of Alaska" or "The State of Alaska Department of Transportation and Public Facilities" and REPLACE with: "City" (meaning the City of Fairbanks). Also, DELETE all references to "Contracting Officer" and REPLACE with: "City Engineer".

SECTION 102 BIDDING REQUIREMENTS AND CONDITIONS

04/30/22 (HSM20-42)

102-1.05 PREPARATION OF BID. *In the third paragraph, replace the fourth sentence with the following:* If the bidder is a joint venture, the bid must be signed by an officer or agent with authority to bind the joint venture.

SECTION 104 SCOPE OF WORK

11/30/2020 (HSM20-2)

104-1.06 VALUE ENGINEERING CHANGE PROPOSALS BY CONTRACTOR.

- 3. Conditions. Delete paragraph e and substitute the following:
- e. The Contractor may submit VECPs for an approved subcontractor. If the Contractor elects to submit a VECP for an approved subcontractor and it is subsequently accepted by the Department, the Department will reimburse the Contractor per Subsection 104-1.06.5.

SECTION 107 LEGAL RELATIONS AND RESPONSIBILITY TO PUBLIC

01/20/15 (N5)

Add the following subsection:

107-1.22 NOISE ABATEMENT. The Contractor will not disturb the peace in contravention of any applicable local Ordinance. Within the City of Fairbanks, the applicable ordinance is FGC Section 46-42. Any noise within the City of Fairbanks as described in FGC Section 46-42(A)(3) will be limited to the hours of 7 a.m. to 11 p.m. unless exempted by FGC Section 46-42(E).

SECTION 108 PROSECTUTION AND PROGRESS

01/01/22 (HSM20-41)

108-1.01 SUBCONTRACTING OF CONTRACT. In item 1.g delete "AS 45.45.101(a)" and substitute the following: AS 45.45.010(a).

In item 2.f delete "AS 45.45.101(a)" and substitute the following: AS 45.45.010(a).

SECTION 108 PROSECUTION AND PROGRESS

07/01/24 (HSM20-43A)

108-1.07 FAILURE TO COMPLETE ON TIME. Replace Table 108-1 with the following:

Table 108-1 DAILY CHARGE FOR LIQUIDATED DAMAGES FOR EACH CALENDAR DAY OF DELAY

Original Con	Daily Charge	
From More Than	To and Including	
\$ 0	1,000,000	\$1,500
1,000,000	5,000,000	2,900
5,000,000	25,000,000	5,500
25,000,000		6,900

PART III - CITY SUPPLEMENTAL CONDITIONS

DIVISION 100 - GENERAL PROVISIONS OF THE ALASKA DEPARTMENT OF TRANSPORTATION & PUBLIC FACILITIES <u>STANDARD SPECIFICATIONS FOR HIGHWAY CONSTRUCTION</u>, 2020 EDITION, ARE FURTHER MODIFIED BY THIS PROJECT AS FOLLOWS:

SECTION 101 DEFINITIONS AND TERMS

SECTION 101-1.01 GENERAL. Add the following: In all specifications, <u>DELETE all references to</u> "Department" or "State" or "State of Alaska" or "The State of Alaska Department of Transportation and Public Facilities" <u>and REPLACE with:</u> "City" (meaning the City of Fairbanks). Also, <u>DELETE all references</u> to "Contracting Officer" and REPLACE with: "City Engineer".

SECTION 101-1.03 DEFINITIONS. Add the following:

SUBMITTAL. A bound document prepared by the contractor consisting of a compilation of product data, shop drawings calculations, certifications and reports to be submitted to the Engineer.

SECTION 102 BIDDING REQUIREMENTS AND CONDITIONS

102-1.07 BID GUARANTY. <u>DELETE the second sentence and SUBSTITUTE the following</u>: The guaranty must be unconditionally payable to the City of Fairbanks and must be in the form of an acceptable Bid Bond, or a certified check, cashier's check, or money order.

102-1.09 WITHDRAWAL OR REVISION OF BIDS. Add the following to the first paragraph: Modifications to bids shall be submitted on forms furnished by the City or reasonable facsimiles thereof. If a form other than that provided is used it must be of a very similar format, containing at a minimum the information required on the provided form.

SECTION 103 AWARD AND EXECUTION OF CONTRACT

103-1.01 CONSIDERATION OF BIDS. *In the first sentence of the fourth paragraph after* "...may protest a proposed Award of contract" *add the following:* "..., award of a contract, or a solicitation for construction ..." **103-1.06 INSURANCE REQUIREMENTS.**

<u>DELETE Item 1: Workers' Compensation and see new subsection Certificate of Insurance.</u>

DELETE Item 2: Commercial General Liability and see new subsection Certificate of Insurance.

DELETE Item 3: Automobile Liability and see new subsection Certificate of Insurance.

DELETE 4th paragraph and SUBSTITUTE the following:

The City of Fairbanks shall be named as an additional insured on policies required by paragraphs 2 through 4 above. All of the above insurance coverages will be considered to be primary and noncontributory to any other insurance carried by the City of Fairbanks, whether through self-insurance or otherwise.

Add the following [new] subsections:

Certificate of Insurance

Contractor must furnish a certificate of insurance within 10 days of receipt of the Notice-of-Intent to Award and must endorse polices to provide for a 30-day notice prior to cancellation, non-renewal or material change of the policies. Failure to furnish satisfactory evidence of insurance or lapse of policy is a material breach of the contract and grounds for termination of this agreement. Each policy must be endorsed with a waiver of subrogation in favor of the Owner. All other insurance policies required of the Contractor by this agreement must be endorsed to provide that such insurance applies as primary insurance and that any insurance or self-insured carried by the Owner will be excess only and will not contribute with the insurance required by this agreement. All other insurance policies required of the Contractor and subcontractors by this Agreement must be endorsed to name the Owner as additional insured. All insurance must be on an occurrence from acceptable to the Owner and having an A.M. Best rating of "A" or better.

- 1. Workers' Compensation and Employers' Liability Insurance as required by any applicable law or regulation. Employers' liability insurance must be in the amount no less than \$500,000 each accident for bodily injury, \$500,000 policy limit for bodily injury by disease and \$500,000 each employee for bodily injury by disease. The Contractor shall be responsible for Workers' Compensation Insurance for any subcontractor who directly or indirectly provides services under this contract. This coverage must include statutory coverage for states in which employees are engaging work. If there is an exposure of injury to Contractor's employees under the U.S. Longshoremen's Harbor Workers' Compensation Act, the Jones Act, or under laws, regulations or statutes applicable to maritime employee, coverage must be included for such injuries or claims. The coverage must include waiver of subrogation against the City.
- 2. Commercial General Liability Insurance: The Contractor is required to provide Commercial General Liability (CGL) insurance with limits not less than \$5,000,000 combined single limit per occurrence and \$5,000,000 in the aggregate not excluding premises operations, independent contractors, products, and completed operations, broad form property damage, blanket contractual, explosion, collapse and underground hazards. Limits may be a combination of primary and excess (umbrella) policy forms.
- 3. Comprehensive Automobile Liability Insurance: Covering all owned, hired and non-owned vehicles with coverage limits not less than \$1,000,000 single limit per occurrence bodily injury and property damage.
- 4. Property Insurance: The Contractor shall submit to the Owner evidence of All Risk Builder's Risk Insurance for all physical loss, including earthquake and flood (100% completed value basis) upon the entire work naming the Owner, the Contractor, and the subcontractors as additional insured parties and as their interests may appear to the full contract sum thereof, until the project is completed by the Contractor and accepted by the Owner. The policy, by endorsement, must specifically permit partial or beneficial occupancy at or prior to substantial completion or final acceptance of the entire work. (Only if applicable)
- A. PROOF OF INSURANCE: The Contractor shall furnish the Owner with a Certificate of Insurance or where requested by the Owner, the policy declaration page with required endorsements attached thereto showing the type, amount, effective dates, and dates of expiration of all policies. All endorsements must reference policy number and the project name and project number. The Owner is the City of Fairbanks and is to be identified on all certificates and endorsements.
- B. To the fullest extent permitted by law, the Contractor shall defend, indemnify, and hold harmless the City of Fairbanks its officers, and employees from and against any and all loss, expense, damage, claim, demand, judgment, fine, charge, lien, liability, action, cause of action, or proceedings of any kind whatsoever (whether arising on account of damage to or loss of property, or personal injury, emotional distress or death) arising directly or indirectly in connection with the performance or activities of the Contractor hereunder, whether the same arises before or after completion of the contractor's operations or expiration of this Agreement, except for damage, loss or injury resulting from the Owner's gross negligence or willful misconduct.
- C. Without limiting its indemnification, the Contractor shall maintain, until acceptance of the project by the Owner, occurrence type coverage of the kinds and minimum amounts set forth above. All insurance limits are minimum. If the Contractor's policy contains higher limits, the Owner is entitled to coverage to the extent of such higher limits. The Owner, at its sole discretion, may rise or lower the limit.

SECTION 104 SCOPE OF WORK

11/30/12 (H5)

Add the following subsections:

104-1.07 FROZEN GROUND. Frozen areas, ice lenses, and saturated soils may be encountered on this project and related material sources. Specific locations and specific content of frozen areas, ice lenses, and saturated soils are not defined. Any such area that may be encountered by the Contractor in the performance of the contract work will not be considered unforeseeable within the terms of the contract such as to entitle the Contractor to any adjustment in contract price or contract time. Reference is made to Subsection 203-3.03 of these Specifications.

104-1.08 RECORD DRAWINGS. The Contractor shall maintain a "mark-up" set of plans which shall be revised by the Contractor as the work progresses to reflect current conditions. The revisions are to be indicated in a neat, well-organized manner and are to include the elevation and plan location of any utilities, structures, etc. encountered or installed.

The mark-up plans become the property of the City prior to final acceptance and payment of demobilization.

104-1.09 CLAIMS FOR ADJUSTMENTS AND DISPUTES. All submitted cost and price data must be certified according to FGC Section 54-345 COST OR PRICING DATA.

No time related claims will be compensated to the contractor for owner delay prior to the Contractual End Date.

SECTION 105 CONTROL OF WORK

105-1.18 WARRANTIES. Add the following:

Neither the final certificate of payment nor any provision in the Contract nor partial or entire use of occupancy of the premises by the Owner constitutes an acceptance of Work not done in accordance with the Contract Documents or relieve the Contractor of liability in respect to any express warranties or responsibility for faulty materials or workmanship. The Contractor shall remedy any defects in the Work resulting therefrom which shall appear within a period of one year from the date of the substantial completion of Work, unless a longer period is specified. The Owner or Engineer will give notice of observed defects with reasonable promptness.

SECTION 106 CONTROL OF MATERIAL

106-1.03 TESTING AND ACCEPTANCE. DELETE item 2. entirety and SUBSTITUTE the following:

2. <u>ACCEPTANCE TESTING.</u> The City has the exclusive right and responsibility for determining the acceptability of the construction and incorporated materials.

The City will sample materials and perform acceptance tests at its expense except as otherwise stated. The cost of tests that fail to meet specification requirements will be deducted from the Contract price. Samples will be taken by a qualified testing firm or representative of the Owner. Copies of tests will be furnished to the Contractor upon request.

The Contractor shall not rely on the City's acceptance testing for its quality control. The City's acceptance testing is not a substitute for the Contractor's quality control. The Engineer may retest materials that have failed the City's acceptance test but is not required to do so.

SECTION 107 LEGAL RELATIONS AND RESPONSIBILITY TO PUBLIC

107-1.01 LAWS TO BE OBSERVED. Add to the end of the first paragraph the following: The Fairbanks General Code is available electronically from the City of Fairbanks web site: http://www.fairbanksalaska.us/. Under "Government" click "City Code Online Library" and it will direct you to "Code of Ordinances Fairbanks, Alaska" and notice in particular Chapter 54 - Procurement.

107-1.11 PROTECTION AND RESTORATION OF PROPERTY AND LANDSCAPE.

- 6. Hazardous Materials. Add the following:
 - g. Fuel storage facilities may not be placed within 100 feet of water bodies and must be within an impermeable diked area having a holding capacity at least ten percent greater than that of the largest independent fuel container. Manifolded tanks and bladders are considered as a container. Vehicle refueling may not occur within the annual floodplain.

107-1.13 RESPONSIBILITY FOR DAMAGE CLAIMS. Add the following:

The Contractor's responsibility for damage claims under this section specifically includes all actionable damages, including, but not limited to, claims of damage to structures, retaining walls, utilities, machinery and vibration-sensitive business operations, caused by vibrations which are produced by the execution of this contract. The Contractor shall be liable for all expenses incurred to resolve all such damage claims, at no cost to the City.

Add the following new Subsection:

107-1.22 NOISE ABATEMENT. The contractor shall comply with FGC Section 46-42 which states, in part, as follows:

- (A) A person commits the offense of disturbing the peace if:
 - (3) Between the hours of 11:00 p.m. and 7:00 a.m., operates or uses a pile driver, pneumatic hammer, bulldozer, road grader, loader, power shovel, derrick, backhoe, power saw, manual hammer, motorcycle, snow machine or other instrument, appliance or vehicle which generates loud sounds or noise, after having been informed by another that such operation or use is disturbing the peace and privacy of others.
- (E) Exemptions. The following sound or noise is not prohibited by this Section:
 - (3) Noise necessarily produced in the course of work required to protect persons or property from an imminent peril.
 - (4) Noise produced by any activity for which a permit has been issued pursuant to paragraph (E) of this Section.
- (F) Applications for a permit for relief from the application of this Section to any activity on the basis of undue hardship may be made to the City Mayor or his duly authorized representative. Any permit granted by the City Mayor hereunder must contain all conditions upon which such permit has been granted and must specify a reasonable time that the permit will be effective. The City Mayor, or his duly authorized representative, may grant the relief as applied for if he finds:
 - (1) Additional time is necessary for the applicant to alter or modify their activity or operation to comply with this Section; or
 - (2) The activity, operation or noise source will be of temporary duration, and cannot be done in a manner that would comply with other paragraphs of this Section; and
 - (3) No other reasonable alternative is available to the applicant.

However, the Mayor may prescribe any conditions or requirements he deems necessary to minimize adverse effects upon the community or the surrounding neighborhood.

SECTION 108 PROSECUTION AND PROGRESS

01/01/22 (HSM20-41)

108-1.01 SUBCONTRACTING OF CONTRACT. <u>In item 1.g delete</u> "AS 45.45.101(a)" <u>and substitute the following:</u> AS 45.45.010(a).

In item 2.f delete "AS 45.45.101(a)" and substitute the following: AS 45.45.010(a).

108-1.03 PROSECUTION AND PROGRESS. <u>Delete the last sentence of the first paragraph in its entirety and substitute the following:</u> The Contractor shall submit the following documents to the Engineer at least 15 working days before the preconstruction conference:

108-1.06 CONTRACT TIME, EXTENSION OF CONTRACT TIME, AND SUPENSION OF WORK. <u>Delete in entirety and substitute the following</u>: Time is of the essence under this Contract. The Work to be done under the Contract must be completed in its entirety within the time specified in the Contract Documents. The date of commencement will be the date established in the Notice to Proceed. If there is no Notice to Proceed, it will be the date of the agreement signed by the Owner and the Contractor.

The Engineer may at their discretion recommend that the Owner extend the time for completion of the Work without invalidating any of the provisions of the Contract and without releasing the surety. Extensions of time, when recommended by Engineer, will be based upon the effect of delays to the Project as a whole and will not be recommended for non-controlling delays to minor included portions of the work unless it can be shown that such delays did, in fact, delay the progress of the Project as a whole.

Acts of God, inclement weather, governmental regulations, labor disputes, strikes, fires, required extra work or any delay totally beyond the control of the Contractor may justify an extension of time.

No extension of time for completion will be allowed for delays or suspensions caused by or contributed to by the fault or negligence of Contractor or their subcontractors.

All time extensions requested by Contractor must be made to Engineer in writing on or before the tenth day following the day in which the alleged delay is said to have occurred and any claim for extension of time must state explicitly the reasons therefore or and the number of days claimed. Should Contractor fail to file such written claim for extension of time within the period provided they shall have abandoned any claim, therefore.

Unless otherwise provided herein, Contractor's sole remedy for any justified delay in the Work will be an extension of time, and they will be entitled to no delay damages, wage escalation, material escalation, extended overhead, or additional compensation of any kind except for such delays as maybe caused solely by any fault of Owner.

The Engineer, by written order, may suspend Work on the Project, in whole or in part, for such periods as they may judge necessary due to inclement weather, unforeseen emergency conditions, or to expedite public traffic. When the Work is suspended for one or more calendar days by order of the Engineer, the time for completion will be increased, except as hereinafter stated.

In those instances where the Engineer orders suspension of the Work for failure by the Contractor to carry out contractual provisions, or for failure to carry out orders given by the Engineer within the limits of the Contract, the Contractor will not be entitled to an increase in the time for completion.

SECTION 109 MEASUREMENT AND PAYMENT

109-1.01 GENERAL. <u>Add the following</u>: All payments requested by the Contractor will be developed by the Contractor in a form acceptable to the Engineer. Pay estimates will be submitted by the Contractor and must be approved by the Engineer.

109-1.02 MEASUREMENT OF QUANTITIES. <u>Under subtitle (2) Electronic Computerized Weighing System. item (a) Computer. add the following to the end of the first sentence:</u> ",a CD, or a USB device."

109-1.06 PROGRESS PAYMENTS. <u>Add the following:</u> The City shall initiate procedures to pay the Contractor according to FGC Sec. 54-105 within 15 days after the Contractor submits to the City a bill for materials provided or services performed and a sworn statement that all employees employed on the Project by the Contractor and all subcontractors have been paid not less than the established prevailing rate of pay as determined and published by the State of Alaska, Department of Labor.

Progress payments under the Contract will be made at the request of the Contractor based upon pay estimates to be furnished by the Contractor and approved by the Engineer. The Engineer reserves the right to alter quantities claimed in the partial estimate to reflect what are, in Engineer's opinion, the true quantities for the payment time period.

109-1.08 FINAL PAYMENT. <u>DELETE the first sentence of the first paragraph and substitute the following:</u> When the project has been completed as provided in Subsection 105-1.15, the Contractor will prepare for approval by the Engineer the final estimate of the quantities of the various classes of work performed.

<u>Add the following to the last sentence of the first paragraph:</u> and the Consent of Surety Company to Final Payment form is executed and received.

PART IV - TECHNICAL & SPECIAL PROVISION

SECTIONS 200s-700s OF THE ALASKA DEPARTMENT OF TRANSPORTATION & PUBLIC FACILITIES STANDARD SPECIFICATIONS FOR HIGHWAY CONSTRUCTION, 2020 EDITION, ARE HEREBY ADOPTED BY REFERENCE FOR THIS PROJECT, AND MODIFIED AS FOLLOWS:

SECTION 202 REMOVAL OF STRUCTURES AND OBSTRUCTIONS

202-3.07 SUPPORT OF EXISTING POLES AND APPURTENANCES. By any means necessary, provide temporary support of existing utility poles, signal poles, luminaire poles, yard poles, anchors, fencing, and other associated poles and appurtenances which are affected by construction activities. Maintain existing power and communications, by any means necessary.

202-5.01 BASIS OF PAYMENT. Delete the first paragraph and substitute the following:

<u>Item 202.0001.0000 Removal of Structures and Obstructions.</u> Payment includes removing, salvage of, disposing of, or relocating of, all structures and obstructions, abandonment of existing structures, pipe, or conduit, and everything described in the above subsections, encountered within the right-of-way, easements (temporary and permanent), and project limits, under the provisions of this subsection, that are not to be paid for under separate bid items within the bid schedule.

Payment includes preserving, protecting, or replacing existing landscaping, structures, or other appurtenances to original/existing conditions.

Payment includes the temporary support, by any means necessary, of existing utility poles, signal poles, luminaire poles, yard poles, anchors, fencing, and other associated poles and appurtenances. Payment also includes any means necessary and required to maintain existing power and communications.

Payment includes saw-cutting, removal and delivery of existing asphalt limits as shown on the plans. Coordinate with project manager for delivery to City of Fairbanks Public Works Department.

SECTION 203 EXCAVATION AND EMBANKMENT

01/20/15 (N8)

203-3.01 GENERAL. Add the following to the eighth paragraph: Disposal in wetlands is prohibited, except as described in Subsection 107-1.11.

<u>Add the following after the eighth paragraph</u>: The Contractor shall certify in writing to the Engineer that all permits and clearances relating to all waste disposal sites selected by the Contractor have been obtained prior to any clearing or ground disturbance in the disposal site.

11/30/2020 (HSM20-5)

203-3.04 COMPACTION WITH MOISTURE AND DENSITY CONTROL. *In the second paragraph delete the words* "and ATM 214".

203-5.01 BASIS OF PAYMENT. <u>Add the following:</u> Payment includes grading of existing material to meet the typical section as shown on the plans.

SECTION 301 AGGREGATE BASE AND SURFACE COURSE

11/30/2020 (HSM20-5)

301-3.03 SHAPING AND COMPACTION. In the second paragraph delete the words "and ATM 214".

SECTION 401 HOT MIX ASPHALT PAVEMENT

401-2.09 JOB MIX DESIGN. <u>Delete the last two rows of Table 401-1 HMA MARSHALL DESIGN</u> REQUIREMENTS.

401-3.17 JOINTS. <u>Add the following:</u> Paving at intersection of crown shall be accomplished by paving one foot behind the crown line from one side of the crown. The crown line shall then be marked and sawcut prior to paving the opposite side of the crown.

SECTION 609 CURBING

05/06/21 (N88)

609-2.01 MATERIALS. Delete the line beginning with "Joint Sealer" and substitute the following:

Joint Sealer Hot pour joint sealant in accordance with ASTM D6690, Type IV

07/01/20 (N81)

Add the following to the list of materials in first paragraph:

Reinforcement Subsection 709-2.01

609-3.02 CAST-IN-PLACE CONCRETE CURBING. <u>Add the following after the first paragraph:</u> Use two longitudinally placed #4 reinforcing steel bars for the entire length of concrete curb and gutter. Place the reinforcing steel 3 inches from the bottom and 4 inches from each outside edge. Provide continuing reinforcement by lap splicing the bars by minimum overlap of 1.75 feet.

<u>Add the following after the seventh paragraph:</u> Provide a human guard to protect work from vandalism or surface defects for the first 24 hours during concrete cure.

All curbing shall have a minimum of 12 inches of Subbase, Grading F beneath.

609-5.01 BASIS OF PAYMENT. <u>Add the following:</u> Providing a human guard during concrete cure will not be paid for separately but will be subsidiary to 609 pay items.

SECTION 640 MOBILIZATION AND DEMOBILIZATION

640-1.01 DESCRIPTION. <u>Add the following:</u> This item shall also consist of final project closeout and cleanup operations, including, but not limited to, those necessary for the removal of equipment, supplies, incidentals, and debris from the project site, cleaning the streets and sidewalks of all soils and construction debris, correction of all deficiencies in the work, and for all other work required by the Engineer which must be performed, or costs incurred, prior to final acceptance by the City not paid for by other contract pay items.

640-4.01 METHOD OF MEASUREMENT. Delete in its entirety and substitute the following:

- 1. When you earn five percent (5%) of the original Contract amount from other bid items: fifty percent 50%) of the amount bid for mobilization and demobilization, or five percent (5%) of the original contract amount, which is less, will be paid.
- 2. The remaining balance of the amount bid for this item will be paid upon completion of all work required under the Contract.

<u>Delete Section 641 in its entirety and substitute the following:</u> 02/01/20 (N33)

SECTION 641 POLLUTION CONTROL

641-1.01 DESCRIPTION. Plan, provide, inspect and maintain control of hazardous materials contamination.

641-1.02 DEFINITIONS.

- 1. <u>HMCP (Hazardous Material Control Plan)</u>. The Contractor's detailed site specific plan for prevention of pollution from storage, use, containment, cleanup, and disposal of hazardous material, including petroleum products related to construction activities and equipment.
- 2. <u>SPCC Plan (Spill Prevention, Control and Countermeasure)</u>. The Contractor's detailed plan for petroleum spill prevention and control measures that meets the requirements of 40 CFR 112.

641-1.03 PLAN AND PERMIT SUBMITTALS. Submission deadlines in this Subsection supersede Subsection 108-1.03.

Submit two signed copies of the HMCP to the Engineer for approval. Submit one signed copy of the SPCC Plan to the Engineer. Deliver these documents to the Engineer at least 14 calendar days before the preconstruction conference.

The Department will review the HMCP submittal, and will return it to the Contractor marked as either requiring modification or as approved by the Department. The Department will keep the SPCC Plan as a record document.

641-2.01 HAZARDOUS MATERIAL CONTROL PLAN (HMCP) REQUIREMENTS. Prepare a HMCP for prevention of pollution from the storage, use, containment, cleanup, and disposal of hazardous material, including petroleum products related to construction activities and equipment. (See 40 CFR 117 and 302 for listing of hazardous materials.) Compile Material Safety Data Sheets in one location and reference the location in the HMCP.

List the types and approximate quantities of response equipment and cleanup materials available on site. Include a list and location map of cleanup materials, at each different work site and readily available off site (main site, material site, batch plant, storage yard, explosives dump, equipment or fueling yard, etc). Vehicles and other mobile equipment must carry oil absorbent pads.

Specify the line of authority and designate a Contractor field representative for spill response, and one coordinator from each subcontractor. Provide 24 hour contact information for each representative or coordinator.

List and give the location of hazardous materials, including office materials, to be used or stored on site, and estimated quantities. Store hazardous materials in covered storage areas, such areas must also function as or include a secondary containment system.

Identify the locations where storage, fueling and maintenance activities will take place, describe the maintenance activities, and list controls to prevent the accidental spillage of petroleum products and other hazardous materials. Store spill response materials appropriate to the hazards associated with that site in sufficient quantity at each identified location.

Detail procedures for containment and cleanup of hazardous substances. Detail a plan for the prevention, containment, cleanup, and disposal of soil and water contaminated by accidental spills. Detail a plan for dealing with unexpected contaminated soil and water encountered during construction.

Detail methods for disposing of waste petroleum products and other hazardous materials generated by the project. Identify haul methods and final disposal areas, such areas must be permitted for hazardous material disposal.

641-2.02 SPILL PREVENTION, CONTROL AND COUNTERMEASURE (SPCC) PLAN REQUIREMENTS. Prepare and implement a SPCC Plan when required by 40 CFR 112, including:

1. When petroleum spills may reach navigable waters; and

2. Total above ground petroleum storage capacity is greater than 1,320 gallons (including vehicle and equipment fuel tanks, but not counting containers that have a capacity less than 55 gallons).

Comply with 40 CFR 112 and address the following issues in your SPCC Plan:

- 1. Operating procedures that prevent petroleum spills;
- 2. Control measures installed to prevent a spill from reaching navigable waters; and
- 3. Countermeasures to contain, clean up, and mitigate the effects of a petroleum spill.

You may self-certify the SPCC Plan if total above ground petroleum storage capacity is 10,000 gallons or less, and you meet all the requirements for self-certification of 40 CFR 112. Otherwise the SPCC Plan must be sealed, signed and dated by a Professional Engineer registered in the State of Alaska.

CONSTRUCTION REQUIREMENTS

641-3.01 GENERAL. Comply with the requirements of the approved HMCP, the submitted SPCC Plan, and all state regulations and federal regulations and permits that pertain to the handling, storage, cleanup, and disposal of petroleum products or other hazardous substances. Contain, clean up, and dispose of discharges of petroleum and other hazardous materials.

Comply with the requirements of 18 AAC 75 and AS 46, Oil and Hazardous Substances Pollution Control. Report petroleum spills as required by federal, state and local law, and as described in the HMCP and SPCC Plan.

Perform fueling operations in a safe and environmentally responsible manner as specified in the Alaska Construction General Permit. Fuel storage facilities must be within an impermeable diked area having a holding capacity at least ten percent greater than that of the largest independent fuel container. Place absorbent pads under fill ports while fueling, and under equipment during maintenance or repairs. Install secondary containment under all stationary equipment powered by liquid fuels, such as, welders, compressors, pumps, generators, and hydraulic power units.

Keep a copy of the HMCP and SPCC Plan at the project site or locally available (within 30 miles by road from project site).

641-4.01 METHOD OF MEASUREMENT. This item will not be measured for payment. All administration, work, and materials required under this Section will be paid for under pay item 641,2000,0000.

641-5.01 BASIS OF PAYMENT. At the contract lump sum price to perform all work under this Section.

Payment will be made under:

PAY ITEM		
Item Number	Item Description	Unit
641.2000.0000	Pollution Control	LS

SECTION 643 TRAFFIC MAINTENANCE

01/02/24 (HSM20-45)

643-1.04 WORKSITE TRAFFIC SUPERVISOR. Replace Item 1. Qualifications with the following:

1. <u>Qualifications.</u> Provide a Worksite Traffic Supervisor knowledgeable and experienced regarding the requirements of the ATM and the implementation of those requirements. Provide a Worksite Traffic Supervisor familiar with the Plans, the Specifications, proposed operations, and certified as one of the following:

- a. Traffic Control Supervisor, American Traffic Safety Services Association (ATSSA)
- b. Traffic Control Supervisor, Laborers' International Union of North America (LIUNA)
- c. Work Zone Temporary Traffic Control Technician, International Municipal Signal Association (IMSA). After December 31, 2026 IMSA certification will not be acceptable and the Worksite Traffic Supervisor must have training under a. or b.

Certify according to Form 25D-124 that the Worksite Traffic Supervisor has a minimum 4000 hours of temporary traffic control work experience, is competent and capable, and has the authority to perform the duties and responsibilities in accordance with this section.

- d. Temporary traffic control work experience shall demonstrate an understanding of concepts, techniques, and practices in the installation and maintenance of traffic control devices, and skill in reading, interpreting, implementing, and modifying TCPs.
- e. Temporary traffic control work experience includes: flagging; installing traffic control devices in accordance with TCPs; monitoring traffic control devices and TCP performance; and recognizing and reporting deficiencies in traffic control devices and TCPs for correction.
- f. Temporary traffic control work experience is gained while serving as a Worksite Traffic Supervisor-in-training, temporary traffic control support personnel, and Flagger.
- g. Four thousand hours of experience serving solely as a Flagger does not satisfy these requirements.

Worksite Traffic Supervisors shall maintain current certification and be able to show their certification anytime they are on the project.

12/31/21 (HSM20-30)

643-2.02 CRASHWORTHINESS. Delete Table 643-2 and substitute the following:

TABLE 643-2 WORK ZONE TRAFFIC CONTROL DEVICE AND BARRIER CRASH TESTING COMPLIANCE

Category	Devices	Devices Manufactured Before Dec. 31, 2019 ¹	Devices Manufactured After Dec. 31, 2019 ¹	Method of Documentation
1	Low-mass single-piece devices w/o attachments: traffic cones, tubular markers, single piece drums, delineators	NCHRP 350, MASH 2009, or MASH 2016	MASH 2016	Manufacturer's Certification for devices exceeding height and weight limits
2	Category 1 devices with attachments, barricades, portable sign supports, drums w/lights, other devices weighing less than 100 pounds but not included in category 1	NCHRP 350, MASH 2009, or MASH 2016	MASH 2016	FHWA eligibility letter, at Test Level 3 ²
3	Fixed sign supports, truck mounted attenuators, temporary crash cushions, bridge railing, bridge and guardrail transitions, and	NCHRP 350, MASH 2009, or MASH 2016	MASH 2016	FHWA eligibility letter, at Test Level 3 ²

guardrail and barrier end treatments.			
Portable concrete and steel barriers	NCHRP 350, MASH 2009, or MASH 2016	MASH 2016	FHWA eligibility letter, at Test Level 3, unless otherwise required in the contract.

¹ The Engineer will determine whether a device is in serviceable condition. Serviceable means the device will function equivalent to a new device of the same manufacture.

643-3.01 GENERAL CONSTRUCTION REQUIREMENTS. <u>Delete the second paragraph and substitute</u> the following:

All holes and excavation inside or outside the work areas are to be protected by chain link fence or as approved by the Engineer.

On-site construction activities in City of Fairbanks city limits are limited to between 7 AM and 11 PM in order to comply with Fairbanks General Code Section 46-42 Disturbing the Peace. Nighttime closures shall only be permitted if approved by the Engineer and in compliance with an approved TCP and a City of Fairbanks noise waiver, where applicable. Noise waivers, where applicable, must be approved by the Fairbanks City Mayor. The Contractor shall submit to the City of Fairbanks City Engineer their work plan describing the details on why, when, and how long the waiver is requested.

Pedestrian flaggers shall be used to keep pedestrians out of the work zone and to ensure the safety of the pedestrians within the project limits.

<u>Replace the last paragraph with the following:</u> Immediately notify the Engineer as soon as an employee or a subcontractor becomes aware of any traffic related crash that occurs within the project limits, between construction warnings signs, along a detour route, or involving traffic in a queue back up from project work. Within 3 days fill out the information on Form 25D-123 Work Zone Crash Report and submit a copy to the Engineer.

643-3.04 TRAFFIC CONTROL DEVICES. Replace Item 4. Flagging with the following:

4. <u>Flagging.</u> Furnish trained and competent flaggers and all necessary equipment, including lighting of the flagging position during nighttime operations, to control traffic through the traffic control zone. The Engineer will approve each flagging operation before it begins and direct adjustments as conditions change.

Flaggers must be certified as one of the following:

- a. Flagger by ATSSA
- b. ATSSA Flagging Instructor
- c. Flagger by LIUNA
- d. Traffic Control Technician, LIUNA
- e. Work Zone Temporary Traffic Control Technician, IMSA

After December 31, 2026 IMSA certification will not be acceptable and flaggers must have training under a through d.

² When no test level is specified in an FHWA Eligibility letter; it is implied that the tests were run for Test Level 3

Flaggers shall maintain current flagger certification. Flaggers must be able to show their flagger certification anytime they are on the project.

Flaggers must maintain their assigned flagging location at all times, unless another qualified flagger relieves them, or the approved traffic control plan terminates the flagging requirements. Remove, fully cover, or lay down flagger signs when no flagger is present. Keep the flaggers' area free of encumbrances. Keep the flagger's vehicle well off the roadway and away from the flagging location so the flagger can be easily seen.

Provide approved equipment for two-way radio communications between flaggers when flaggers are not in plain, unobstructed view of each other.

Obtain the Engineer's written approval before flagging signalized intersections. When flagging a signalized intersection, either turn off and cover the traffic signal or place it in the All-Red Flash mode. Coordinate changing traffic signal modes and turning off or turning on traffic signals with the agency responsible for signal maintenance and operation and the Engineer. Get their written approval in advance. Only uniformed police officers are permitted to direct traffic in an intersection with an operating traffic signal.

02/01/2022 (HSM20-39)

643-3.06 TRAFFIC PRICE ADJUSTMENT. <u>Delete Table 643-3 Adjustment Rates in its entirety and substitute the following:</u>

TABLE 643-3 ADJUSTMENT RATES

Published ADT	Dollars/Minute of Unauthorized Lane Reduction or Closure
Less than 1,000	\$6
1,000-4,999	\$25
5,000-9,999	\$75
10,000-29,999	\$105
30,000+	\$150

<u>Add the following to the second paragraph:</u> Exceeding any of the maximum allowable traffic restriction durations, or violating any of the criteria, listed in Subsection 643-3.08, is considered an unauthorized lane closure and are subject to a traffic price adjustment as directed by the Engineer.

Add the following subsection:

643-3.12 PUBLIC INFORMATION. Provide a Public Information (PI) professional to accomplish the work outlined in this subsection. The PI professional shall be familiar with the construction schedule, progress and traffic control; provide information to the general public and affected residents/businesses in the project area, closure duration and detour routes; and act as liaison between residents/businesses and construction superintendents to schedule required access to residences/businesses through areas of construction, etc. The PI professional shall participate in the Preconstruction Conference. The PI Professional shall be responsible for public interaction; preparing graphics; developing and maintaining mailing lists; supplying updated information; and all labor, equipment, postage, and materials to provide this service. The PI Professional's office shall be equipped with a facsimile machine and email.

Failure to provide public or agency notice, or failure to provide submittals required by this subsection may result in delays to planned construction.

The PI professional shall be responsible for the following tasks of the PI Program:

- Support for Business and Resident Flier Information and Distribution. Submit to the Engineer for review and approval, information to be included in hand-delivered fliers to all businesses and residents within project limits. Hand deliver the fliers during the house of 8 a.m. to 5 p.m. to adjacent businesses and residences. Flier information shall contain the same information as listed in 643-3.12 as well as the following:
 - a. A description of impacts that residents, business owners, employees or customers may experience during the project
 - b. The Contractor's anticipated construction schedule, describing the sequence and location of activities within the corridor

Distribute fliers at the following times:

- a. Two weeks before construction begins
- b. One week prior to major impacts/start of new phase or work segment
- c. Minimum of 48 hours, but not more than 4 calendar days prior to restricting access onto private or business property.
- 2. <u>Utility Outage Notifications</u>. Provide written notice to property owners and tenants a minimum of 48 hours prior to any utility outage.
- 3. <u>Agency Notification</u>. Notify the following Agencies at least 1 week prior to starting any work which will potentially impede all modes of traffic. Information on project area duration and detour routes should be provided.
 - a. City Police Department
 - b. City Fire Department
 - c. State Troopers
 - d. Borough Transit
 - e. School District (if during school season)
 - f. US Postal Service
- 4. In instances of emergencies, utility shutdowns, changes in traffic patterns or other unanticipated impacts to motorists, bicyclists and pedestrians, or residences/businesses within the project corridor, coordinate with the Engineer immediately.

643-4.01 METHOD OF MEASUREMENT.

1. Traffic Maintenance. <u>Delete and substitute the following:</u> No measurement of quantities shall be made. Traffic Maintenance shall be Lump Sum.

Add the following:

17. Public Information. No measurement of quantities shall be made. Public information shall be subsidiary.

643-5.01 BASIS OF PAYMENT.

Add the following to 1. Traffic Maintenance:

Payment at the contract lump sum price shall be for full compensation for furnishing all supervision, labor, materials, equipment, devices, public information, and subsidiary items necessary to implement each approved TCPs (including any or all component parts that comprise the setup), ensure the safety of the traveling public, and maintain access to all residences and businesses during construction for the project setup shown on Plans. Traffic Maintenance Setups all include payment for maintenance of side streets and any temporary sidewalks, pedestrian paths, and fencing to maintain access to residences, facilities, and businesses and to keep pedestrians out of the work zone and to ensure the safety of the pedestrians within the project setup area. Any adjustments to the approved TCPs are subsidiary. Watering for dust control directed by Engineer is also subsidiary.

All labor, materials, and equipment required to install, maintain, and remove temporary chain-link fence around excavation areas will not be measured for payment but is subsidiary.

All work, materials, and associated costs for publishing notices, preparation and distribution of mail outs or flyers; public liaison and other project related communication is subsidiary to pay item 643.0002.0000 Traffic Maintenance.

SECTION 702 ASPHALT MATERIALS

08/04/22 (N82)

702-2.01 ASPHALT BINDER. Delete the first paragraph and substitute the following: Meet AASHTO M 320 for PG 52-28 binder.

702-2.03 EMULSIFIED ASPHALT.

1. <u>Cationic Emulsified Asphalt</u>. <u>Add the following:</u> CRS-2P shall meet AASHTO M 316, except the penetration value shall be 100 – 200 mm.

Add the following subsection:

712-2.23 INSULATION.

<u>Spray Foam Insulation.</u> Foam insulation shall be a closed cell two-part urethane with the following properties:

"K" Factor: 0.13 BTU - IN/HR. FT² °F (ASTM C-177)

Water Absorption: 0.1 PSF Maximum (ASTM C-2841 96 Hours Under 2 in. Head)
