## HIS HANDS FOR HAITI NEWS

February 2022

We can almost repeat what we wrote a year ago...God is always ahead of us clearing our path, preparing the way. This trip was no different. It was a short trip, eight days including travel and a Sunday to be at church and rest a wee bit. This trip almost didn't happen. Many of you may have heard about the flooding a week prior to our travels. Because of all we were seeing and hearing we canceled our trip. But that whole week we could sense we still needed to go. On Sunday night we agreed, on Monday we learned our two seats were still available on MFI and somehow managed to prepare all we needed in that one day smiling the whole time. We just knew God wanted us to go now and by this time the flooding was over and things were already cleaned up! The Haitian people are so resilient and they just truly amaze us with all they go through and still move through it all head on. We are grateful to God for blessing us through the people in Haiti, the hugs they give, the love they show to us. They are our family and our hearts are with them always.

The schools we visited in Feb are: DeRac, Ferrier, Ouanaminthe, Roche Platte, and Stanford Kelly. We also have some updated grade levels for Terrier Rouge students. There is a lot of work to be done to get info sheets out and the website updated so please bear with us as we work on those. Thank you for your patience and your hearts for the children!

### \*\*\*\*Reminder\*\*\*\*

If you have not yet sent in your sponsorship donations for January, February, and March we need those in please so that we can get the funds sent to the schools. Donations should be in no later than the first of each month for monthly donations and by 1 January for yearly donations. If you have any questions please do not hesitate to email Karen and/or Lorna.

You should have received your Pledges in December and EOY Statements in January. If you did not please let us know and let us know the correct email/ mailing address.

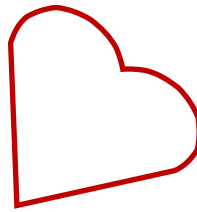

**"I am not really very brave; I am not really very strong; and I am not doing anything spectacular. I am simply doing what God has called me to do as a person who follows Him." Katie Davis Majors**

*We hope to go back in October! We would love to have more than two on the team, maybe even two small teams so we can get to more schools in one trip. The dates we are looking at right now are somewhere between 18 Oct and 1 November. The time there depends on how many schools and how many on the team. If you have any questions please contact Lorna...*

***Lorna@HisHandsForHaiti.org!***

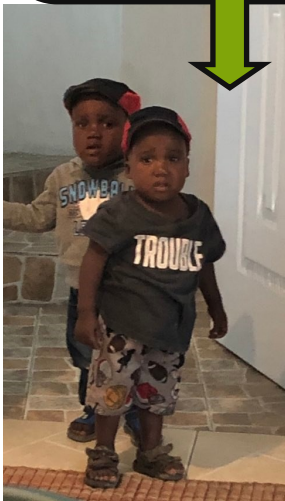

*You can just tentatively reserve your spot and when we get a couple months or so out from the time of travel then you can confirm. Pray Pray Pray about if this is what God is calling you to do.*

### Psalm 127:3

The precious Terrier Rouge Twins everyone prayed so hard for and some sent donations for. We are truly grateful to God and to all who have prayed and donated. From around 7 months old on our first visit with at least one being very sick to this third time seeing them. Our chins hit the floor as they walked in on their own and how much better they looked. They still need prayer, as does their young mom, and any donations are appreciated.

*"Lou" is a student whose sponsor has helped him with going to a Tech School to learn maintenance of "machines" such as motorbikes, buses, cars, etc.*

### \*\*\*\*Medical and Food Needs\*\*\*\*

God continues to show us needs in other areas, such as medical and food. The twins are doing so well, but are always in need of food. We would love to see them get protein in their diets.

We have talked about the Vigore siblings and their medical needs. While we were there Love Madalie (photo above) was home from school with a fever so we decided to go pay a visit and check up on her. Her eyes and skin are so bad and she definitely needs prayers. When she is older she will need eye surgeries. For now we learned she is not eating much, as in her appetite isn't the greatest. Please pray that she will get her appetite back and eat better. We talked it over and decided to buy them a couple goats. Goats are fairly easy to raise and are used for milk and meat. They can be bred and "kids" sold to earn money to buy other foods. It's an awesome gift for families there. Her brother, Love Kerly, also has skin issues (in doorway).

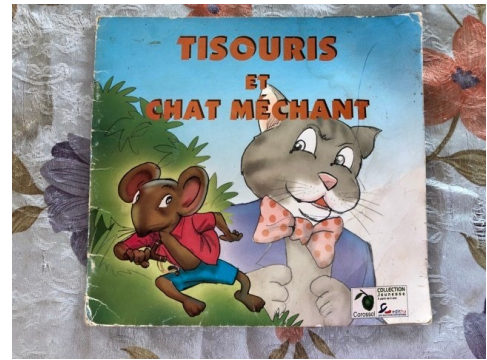

We have a new child God put in our path this trip. Her name is Fanaika (photos above left). She has stolen our hearts and the hearts of my folks (THANKS MOM & DAD!), who are now her sponsors. We may soon be asking for donations to help this beautiful little girl. She is three years old, but at about two months old she was severely burned. We have already been in contact with a clinic in Haiti to see about getting her an initial appt, but we have to wait for doctors to visit this clinic. We are also checking into other options. If you feel led to help this child, or any child God puts before us, we do have a medical fund. Please be sure to add a note to your donation... "[Haiti medical](#)".

As one child or family is helped we celebrate with praises to the One who puts these before us and shows us how to help. Without Jesus we could never do this. Without our friends in country & the support of our sponsors/donors, we wouldn't know what is needed or how to proceed. God continues to awe us and all Glory goes to him!. We ask for your prayers and your help for these families. We can never say [Thank You](#) enough!
