

# Maine CDC Breast and Cervical Health Program (MBCHP)

## MBCHP pays for breast and cervical cancer screenings (like mammograms and Pap/HPV tests) for people who qualify and identify as female, nonbinary, or transgender.

### Do I qualify?

You may qualify if you:

- Are a Maine resident, age 40\* or older;
- Have no health insurance or a high deductible; and
- Meet income guidelines (less than or equal to 250% of Federal Poverty Level)

\* Limited openings for those aged 35-39 who have seen a doctor and need more tests for possible breast or cervical cancer OR who have not had a Pap test in five or more years.

### What services does MBCHP cover?

If you see an MBCHP participating health care provider, the program pays for:

- Breast Exams
- Pelvic Exams (internal exams)
- Pap Tests
- HPV Tests
- Mammograms (breast x-rays)
- Some Diagnostic or Follow-Up Services

To learn more, call 1-800-350-5180, press 1

Maine Center for Disease Control and Prevention is an equal opportunity provider.

# Who should get screened for breast and cervical cancer?

MBCHP serves those who meet program eligibility requirements and identify as female, nonbinary, or transgender.

## Breast Cancer Screening

Transgender women who have taken/are taking hormones, and transgender men who have not undergone a 100% bilateral mastectomy.

## Cervical Cancer Screening

Transgender men who have not undergone a total hysterectomy (i.e., still have a cervix).

## Maine Treatment Act

**How do I get treatment for my breast or cervical cancer?**

**Contact MBCHP!**

If you qualify, we'll enroll you in MaineCare.

**Who can I call with MaineCare questions?**

Call MaineCare Member Services at 1-800-977-6740.

---

TTY users call Maine Relay 711.

## How long will I have MaineCare?

You'll have MaineCare as long as you:

- Are being treated for breast or cervical cancer or precancer;
- Have no other health insurance; and
- Are between 35-64 years old.

MBCHP will review your case each year.
