

Steps for connecting to the WiFi:

- 1** Turn on your device or press the power button if it is on standby.
- 2** Locate the **Smugglers WiFi** Network, and select it
- 3** Open your browser (example: Chrome, Firefox, or Internet Explorer)
Note: If the welcome page does not automatically appear, erase everything in the address bar and type: start.tengointernet.com
- 4** Enter your first name, last name, email address, and the
Password: smugglersden

Now you're connected!

What if I don't see the WiFi network?

Make sure your device is not in airplane mode and that your WiFi adapter is turned on. All WiFi-equipped internet devices have a switch, button, or setting option that allows you to turn off or on the WiFi adapter. Please contact your device manufacturer for additional information.

How do I add my streaming device? (Smart TV, stick, or gaming console)

If you need to add a streaming device, please contact the guest support number below for assistance.
