

MARINEVENT®

Drainage and Ventilation Mat

MarineVent® | Drainage Mat for Marine Applications

DESCRIPTION

MarineVent® is a revolutionary, durable and cost-effective drainage and ventilation mat that creates an open space for resin to flow freely during boat construction. MarineVent® is also used within your boat to allow proper airflow to dry up any moisture present under the following applications:

APPLICATIONS

- Seat Cushions
- Mattresses
- Storage Compartments
- Marine Batteries
- Coolers

PRODUCT FEATURES / BENEFITS

- MarineVent® is an entangled web with a 90% open-weave design for optimal drainage and ventilation.
- Reduces condensation, mold and mildew.
- Our entangled matrix is manufactured out of a proprietary composite.
- Available with or without a breathable fabric heat-bonded onto one side.
- MarineVent® is sold in rolls and easily trimmed with scissors to any desired dimension.
- It requires no mechanical fasteners to install.
- It can also be used as a screen to prevent debris from clogging bilge pump intakes and floating switches.

PACKAGING

- Thickness: .75" (19.05 mm)
- Roll Size: 39" X 50'
- Roll Weight: 20 lbs. (9.07 kg)
- Sq. Ft. Per Roll: 162.5 (15.10 m2)
- Rolls Per Pallet: 8
- Product Color: Black
