Winthrop HS Soccer team members and Coach Joe Menice of the will run a week-long camp. This special camp, especially set up for younger players, is a great introduction to soccer skills. A combination of skills work and competition creates a highly paced week of fun for all levels of players.

Players will get more time working on skills and do game improving drills and playing games. Players will learn ball skills and have fun playing small sided skill games.

Players must bring water and a snack for the day
