

## **STAFF INVOLVEMENT IN DECISION MAKING**

The formulation of policy involving the curriculum, instruction and the overall school program is one of the primary responsibilities of the Mt. Blue Regional School Board (RSU 9), and the Board reserves the right to make the final decision regarding such policies. The Board believes that the best interests of the district's students should be the principle guiding the adoption of all educational policy. The Board further believes that appropriate input from the professional staff is important to the decision-making process for policies related to these areas.

The Superintendent shall ensure that there is a process in place to encourage meaningful professional staff input prior to making recommendations regarding curriculum, instruction and the school program to the Board. The process should be conducted in a spirit of cooperation, with a clear focus on student learning as the most important function of the schools, and with the understanding that the staff is collectively responsible for student performance.

Participation in the decision-making process is accompanied with an expectation of accountability by the professional staff. All proposals for changes to the curriculum, instruction or the district's educational goals should incorporate evaluation procedures linked to student outcomes. The Board encourages the use of professional development activities specifically directed to improving staff research, analytical and decision-making abilities.

The Superintendent shall ensure that the administrative team has the appropriate support to lead an effective instructional program with a consistent focus on student learning and outcomes.
